Dear Nevin,

As Team Leader of the EU framework project "PREPERATION OF TENDER DOCUMENTS FOR THE PROJECT OF TR.603.09 "DEVELOPMENT OF SEED SECTOR IN TURKEY AND ALIGNMENT TO THE EU", I would like to express both my appreciation for the very fine job you did as the Deputy Team Leader. This project encountered a significant number of serious technical and administrative problems which you were able to handle with professionalism and technical excellence. Although your assignment was only for 40 work days you invested over 5.5 calendar months to ensure its success despite the additional problems encountered with our local consortium members and experts provided by them.

Your hard work, loyalty and devotion to the assignments allocated to you were exemplary and I will be happy to work with you in future projects. Please do not hesitate in providing my name and contact information for reference purposes in future projects.

It was a pleasure to work with you on this assignment in Turkey and I wish you success in all your future activities on EU or other projects.

Yours sincerely,
